

Beautify Santa Teresa Project - A Landscaping and Neighborhood Signs

Committee: Streets

Project Title: Beautify Santa Teresa Project - A (Landscaping and Neighborhood Signs)

Cost: \$ \$156,650

Location: Santa Teresa Blvd.

Short Description: Landscape side strips, place neighborhood entrance signs, paint the sound walls, and replace wood connectors on Santa Teresa Boulevard (between Chantilly and Bayliss)

Long Description: Beautify Santa Teresa Blvd by landscaping the four-block strip of Santa Teresa Blvd. This would include the planting of trees in the side medians, installing neighborhood entrance signs, the installation of ground cover, painting of the sound walls, and replacing the rotted wood connectors.

Developed in the 1970's, Santa Teresa Blvd was a stunning example of a well-maintained and beautifully landscaped street. Since that time, it has slowly deteriorated as the city does not maintain nor improve the area considering it the responsibility of the individual homeowners. **The City will NOT fund this project outside of this process! This is our only chance to bring life back to this area.** We have been given a unique opportunity to bring the Santa Teresa neighborhood back to its former glory and communicate to others that we are a neighborhood that cares about our property and each other. Please don't let this opportunity pass us by!

What it is....

What it could be...
